LAB 1: LEARNING THE TOOLCHAIN

OVERVIEW

In this lab you will install software development tools and then use them to build, download and debug code. You will follow the instructions in Arm's "Cortex-M0+ Lab using the Freedom KL25Z".

REQUIREMENTS

STEPS

Follow the instructions in the highlighted sections of the Lab 1 document. Take the screenshots as specified in the red text rectangles and paste them into a single document.

DELIVERABLES

- Submit a PDF with your screenshots through Moodle.
